IMPORTANT INFORMATION ABOUT YOUR BILL

- ▶ The EmPower MD charge funds programs that can help you reduce your energy consumption and save you money. For more information, including how to participate, go to BGESmartEnergy.com.
- ▶ Even out your energy bills with Budget Billing-sign up at BGE.com/budget billing.

ATTENTION!

We know bills are high and that matters to us.

MARYLAND'S ENERGY PROBLEM — AND WHAT IT MEANS FOR YOUR BILL.

Blackout Risk

When demand is high ↗ and power supply is low ↘ the system becomes less stable, extreme heat and cold increase outage risk and blackouts become more likely.

Not enough power means higher bills and higher risk for customers.

If Nothing Changes...

- ↗ Blackout risk increases
- ↗ Energy prices keep rising
- ↗ Private power plant company profits grow

Why your electric bill is going up ↗

The biggest part of your bill is the cost of PJM Supply which is generated by private power plant owners like Calpine, NRG, Talen Energy, Vistra and Constellation.

Customers are seeing the impact of multiple forces at once. These factors together are driving upward pressure on bills.

PJM Supply costs

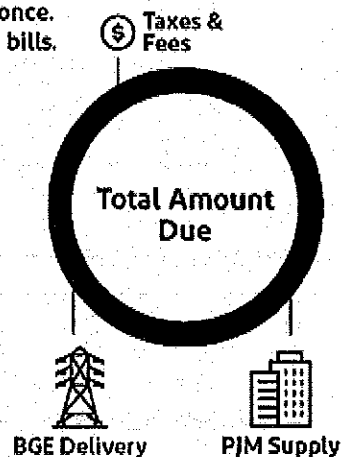

A charge for the electricity provided to you during the billing period. BGE does not control or profit from PJM Supply costs.

Delivery costs

The cost of wires, poles and equipment that deliver electricity safely and reliably to your home or business.

Fees

State and local taxes, fees, and credits including EmPOWER Maryland charges that fund energy-efficiency programs that are paid directly to the state or support state programs.

What BGE is doing for customers

Connecting customers to available assistance, including through our Customer Relief Fund.

Expanding programs that help reduce energy use and lower bills.

Protecting customers from cost impacts tied to large energy users like data centers.

Investing in technology to reduce outages and repairs, lower over time.

Advocating for utility-generated energy to increase supply.

Learn more at [bge.com/EnergyCosts](https://www.bge.com/EnergyCosts)

Additional Information

Energy Assistance

With one easy application, customers can apply for energy grants from the Maryland Office of Home Energy Programs (OHEP). These grants don't have to be repaid and can help offset the costs of home heating and cooling. The amount of the credit is based upon income, household size and energy usage.

ENERGY ASSISTANCE PROGRAMS

Electric Universal Service Program (EUSP)

EUSP is a state program designed to help limited-income customers pay the electric portion of their bills. The program provides bill payment assistance and arrearage assistance, and is available once each "program year," which starts on July 1 each year. However, customers may apply any time during the year.

Maryland Energy Assistance Program (MEAP)

MEAP provides a grant for qualifying customers and is available once each program year. However, customers may apply at any time during the year.

Weatherization Assistance Program (WAP)

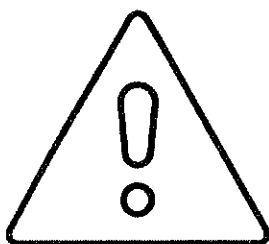

Those who qualify for MEAP may also be eligible to receive weatherization services through the WAP from the Maryland Department of Housing and Community Development. Ask about weatherization when applying for an energy assistance grant, or for more information, call **855.583.8976**.

Utility Service Protection Program (USPP)

USPP helps eligible limited-income customers avoid service interruptions by offering monthly budget billing and protection from shutoffs. To qualify, you must be enrolled in the Maryland Energy Assistance Program (MEAP). Apply today and take control of your energy costs.

For more information, call Maryland OHEP at **800.332.6347** or visit **dhs.maryland.gov/ohep**

Limited-income customers who are still unable to pay the charges for service should visit **[bge.com/ PaymentArrangement](https://bge.com/PaymentArrangement)**, or contact BGE about the availability of an alternate payment plan to avoid termination of service.

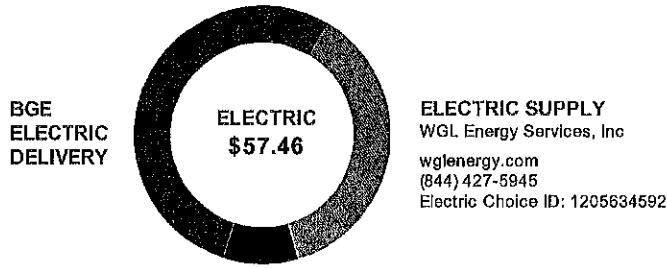

Gas Safety

If you detect signs of a gas leak leave the premise, go at least **100** feet away, and call **911** immediately or BGE at **877.778.7798**.

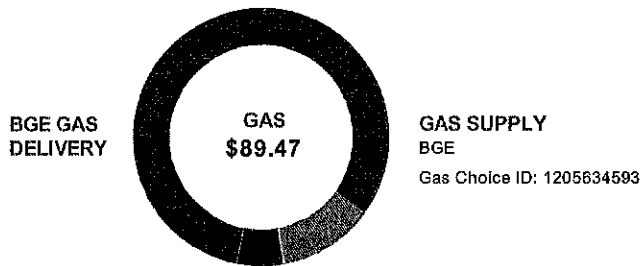

For more information visit **[bge.com/ GasSafety](https://bge.com/GasSafety)**.

IMPORTANT INFORMATION ABOUT YOUR BILL

- ▶ The EmPower MD charge funds programs that can help you reduce your energy consumption and save you money. For more information, including how to participate, go to BGESmartEnergy.com.
- ▶ Even out your energy bills with Budget Billing-sign up at BGE.com/budget billing.

ATTENTION!

We know bills are high and that matters to us.

MARYLAND'S ENERGY PROBLEM — AND WHAT IT MEANS FOR YOUR BILL.

Blackout Risk

When demand is high ↗ and power supply is low ↘ the system becomes less stable, extreme heat and cold increase outage risk and blackouts become more likely.

Not enough power means higher bills and higher risk for customers.

If Nothing Changes...

- ↗ Blackout risk increases
- ↗ Energy prices keep rising
- ↗ Private power plant company profits grow

Why your electric bill is going up ↗

The biggest part of your bill is the cost of PJM Supply which is generated by private power plant owners like Calpine, NRG, Talen Energy, Vistra and Constellation.

Customers are seeing the impact of multiple forces at once. These factors together are driving upward pressure on bills.

PJM Supply costs

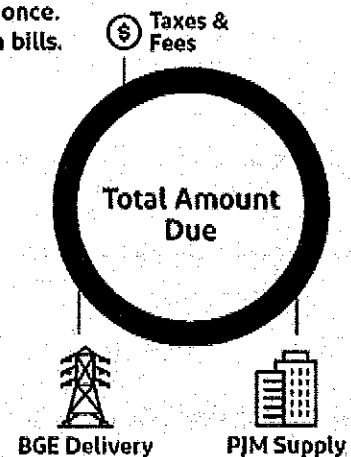

A charge for the electricity provided to you during the billing period. BGE does not control or profit from PJM Supply costs.

Delivery costs

The cost of wires, poles and equipment that deliver electricity safely and reliably to your home or business.

Fees

State and local taxes, fees, and credits including EmPOWER Maryland charges that fund energy-efficiency programs that are paid directly to the state or support state programs.

What BGE is doing for customers

Connecting customers to available assistance, including through our Customer Relief Fund.

Expanding programs that help reduce energy use and lower bills.

Protecting customers from cost impacts tied to large energy users like data centers.

Investing in technology to reduce outages and keep costs lower over time.

Advocating for utility-generated energy to increase supply.

Learn more at bge.com/EnergyCosts

Additional Information

Energy Assistance

With one easy application, customers can apply for energy grants from the Maryland Office of Home Energy Programs (OHEP). These grants don't have to be repaid and can help offset the costs of home heating and cooling. The amount of the credit is based upon income, household size and energy usage.

ENERGY ASSISTANCE PROGRAMS

Electric Universal Service Program (EUSP)

EUSP is a state program designed to help limited-income customers pay the electric portion of their bills. The program provides bill payment assistance and arrearage assistance, and is available once each "program year," which starts on July 1 each year. However, customers may apply any time during the year.

Maryland Energy Assistance Program (MEAP)

MEAP provides a grant for qualifying customers and is available once each program year. However, customers may apply at any time during the year.

Weatherization Assistance Program (WAP)

Those who qualify for MEAP may also be eligible to receive weatherization services through the WAP from the Maryland Department of Housing and Community Development. Ask about weatherization when applying for an energy assistance grant, or for more information, call **855.583.8976**.

Utility Service Protection Program (USPP)

USPP helps eligible limited-income customers avoid service interruptions by offering monthly budget billing and protection from shutoffs. To qualify, you must be enrolled in the Maryland Energy Assistance Program (MEAP). Apply today and take control of your energy costs.

For more information, call Maryland OHEP at **800.332.6347** or visit **dhs.maryland.gov/ohep**

Limited-income customers who are still unable to pay the charges for service should visit **[bge.com/ PaymentArrangement](https://bge.com/PaymentArrangement)**, or contact BGE about the availability of an alternate payment plan to avoid termination of service.

Gas Safety

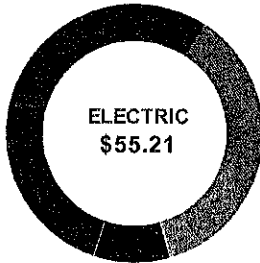

If you detect signs of a gas leak leave the premise, go at least **100 feet** away, and call **911** immediately or BGE at **877.778.7798**.

For more information visit **[bge.com/ GasSafety](https://bge.com/GasSafety)**.

ATTENTION!

We know bills are high and that matters to us.

MARYLAND'S ENERGY PROBLEM — AND WHAT IT MEANS FOR YOUR BILL.

Blackout Risk

When demand is high ↗ and power supply is low ↘ the system becomes less stable, extreme heat and cold increase outage risk and blackouts become more likely.

Not enough power means higher bills and higher risk for customers.

If Nothing Changes...

- ↗ Blackout risk increases
- ↗ Energy prices keep rising
- ↗ Private power plant company profits grow

Why your electric bill is going up ↗

The biggest part of your bill is the cost of PJM Supply which is generated by private power plant owners like Calpine, NRG, Talen Energy, Vistra and Constellation.

Customers are seeing the impact of multiple forces at once. These factors together are driving upward pressure on bills.

PJM Supply costs

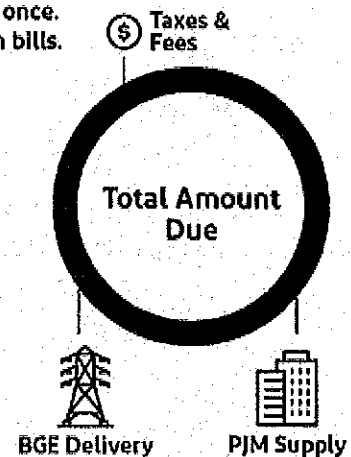

A charge for the electricity provided to you during the billing period. BGE does not control or profit from PJM Supply costs.

Delivery costs

The cost of wires, poles and equipment that deliver electricity safely and reliably to your home or business.

Fees

State and local taxes, fees, and credits including EmPOWER Maryland charges that fund energy-efficiency programs that are paid directly to the state or support state programs.

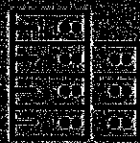

What BGE is doing for customers

Offering customer available assistance, including through our Customer Relief Fund.

Expanding programs that help reduce energy use and lower bills.

Protecting customers from cost impacts tied to large energy users like data centers.

Investing in technology to reduce outages and keep costs lower over time.

Advocating for utility-generated energy to increase supply.

Learn more at bge.com/EnergyCosts

Additional Information

Energy Assistance

With one easy application, customers can apply for energy grants from the Maryland Office of Home Energy Programs (OHEP). These grants don't have to be repaid and can help offset the costs of home heating and cooling. The amount of the credit is based upon income, household size and energy usage.

ENERGY ASSISTANCE PROGRAMS

Electric Universal Service Program (EUSP)

EUSP is a state program designed to help limited-income customers pay the electric portion of their bills. The program provides bill payment assistance and arrearage assistance, and is available once each "program year," which starts on July 1 each year. However, customers may apply any time during the year.

Maryland Energy Assistance Program (MEAP)

MEAP provides a grant for qualifying customers and is available once each program year. However, customers may apply at any time during the year.

Weatherization Assistance Program (WAP)

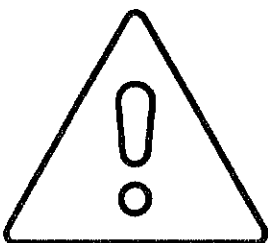

Those who qualify for MEAP may also be eligible to receive weatherization services through the WAP from the Maryland Department of Housing and Community Development. Ask about weatherization when applying for an energy assistance grant, or for more information, call **855.583.8976**.

Utility Service Protection Program (USPP)

USPP helps eligible limited-income customers avoid service interruptions by offering monthly budget billing and protection from shutoffs. To qualify, you must be enrolled in the Maryland Energy Assistance Program (MEAP). Apply today and take control of your energy costs.

For more information, call Maryland OHEP at **800.332.6347** or visit **dhs.maryland.gov/ohep**

Limited-income customers who are still unable to pay the charges for service should visit **[bge.com/ PaymentArrangement](https://bge.com/PaymentArrangement)**, or contact BGE about the availability of an alternate payment plan to avoid termination of service.

Gas Safety

If you detect signs of a gas leak leave the premise, go at least **100** feet away, and call **911** immediately or BGE at **877.778.7798**.

For more information visit **[bge.com/ GasSafety](https://bge.com/GasSafety)**.

ATTENTION!

We know bills are high and that matters to us.

MARYLAND'S ENERGY PROBLEM — AND WHAT IT MEANS FOR YOUR BILL.

Blackout Risk

When demand is high ↗ and power supply is low ↘ the system becomes less stable, extreme heat and cold increase outage risk and blackouts become more likely.

Not enough power means higher bills and higher risk for customers.

If Nothing Changes...

- ↗ Blackout risk increases
- ↗ Energy prices keep rising
- ↗ Private power plant company profits grow

Why your electric bill is going up ↗

The biggest part of your bill is the cost of PJM Supply which is generated by private power plant owners like Calpine, NRG, Talen Energy, Vistra and Constellation.

Customers are seeing the impact of multiple forces at once. These factors together are driving upward pressure on bills.

PJM Supply costs

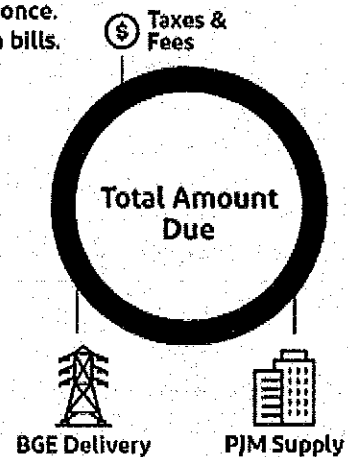

A charge for the electricity provided to you during the billing period. BGE does not control or profit from PJM Supply costs.

Delivery costs

The cost of wires, poles and equipment that deliver electricity safely and reliably to your home or business.

Fees

State and local taxes, fees, and credits including EmPOWER Maryland charges that fund energy-efficiency programs that are paid directly to the state or support state programs.

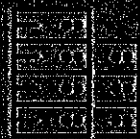

What BGE is doing for customers

Connecting customers to available assistance, including through our Customer Relief Fund.

Expanding programs that help reduce energy use and lower bills.

Protecting customers from rate impacts and to large energy users like churches.

Investing in technology to reduce outages and keep costs lower over time.

Advocating for utility to increase energy to increase supply.

Learn more at bge.com/EnergyCosts

Additional Information

Energy Assistance

With one easy application, customers can apply for energy grants from the Maryland Office of Home Energy Programs (OHEP). These grants don't have to be repaid and can help offset the costs of home heating and cooling. The amount of the credit is based upon income, household size and energy usage.

ENERGY ASSISTANCE PROGRAMS

Electric Universal Service Program (EUSP)

EUSP is a state program designed to help limited-income customers pay the electric portion of their bills. The program provides bill payment assistance and arrearage assistance, and is available once each "program year," which starts on July 1 each year. However, customers may apply any time during the year.

Maryland Energy Assistance Program (MEAP)

MEAP provides a grant for qualifying customers and is available once each program year. However, customers may apply at any time during the year.

Weatherization Assistance Program (WAP)

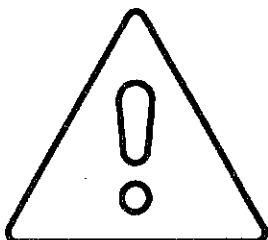

Those who qualify for MEAP may also be eligible to receive weatherization services through the WAP from the Maryland Department of Housing and Community Development. Ask about weatherization when applying for an energy assistance grant, or for more information, call **855.583.8976**.

Utility Service Protection Program (USPP)

USPP helps eligible limited-income customers avoid service interruptions by offering monthly budget billing and protection from shutoffs. To qualify, you must be enrolled in the Maryland Energy Assistance Program (MEAP). Apply today and take control of your energy costs.

For more information, call Maryland OHEP at **800.332.6347** or visit **dhs.maryland.gov/ohep**

Limited-income customers who are still unable to pay the charges for service should visit **[bge.com/ PaymentArrangement](https://bge.com/PaymentArrangement)**, or contact BGE about the availability of an alternate payment plan to avoid termination of service.

Gas Safety

If you detect signs of a gas leak leave the premise, go at least **100** feet away, and call **911** immediately or BGE at **877.778.7798**.

For more information visit **[bge.com/ GasSafety](https://bge.com/GasSafety)**.

Payment received after October 12, 2026 will incur a late charge.

A late payment charge is applied to the unpaid balance of your BGE charges. The charge is up to 1.5% for the first month; additional charges will be assessed on unpaid balances past the first month, not to exceed 5%.

The amounts shown in the circles reflect charges from this bill period.

ATTENTION!

We know bills are high and that matters to us.

MARYLAND'S ENERGY PROBLEM — AND WHAT IT MEANS FOR YOUR BILL.

Blackout Risk

When demand is high ↗ and power supply is low ↘ the system becomes less stable, extreme heat and cold increase outage risk and blackouts become more likely.

Not enough power means higher bills and higher risk for customers.

If Nothing Changes...

- ↗ Blackout risk increases
- ↗ Energy prices keep rising
- ↗ Private power plant company profits grow

Why your electric bill is going up ↗

The biggest part of your bill is the cost of PJM Supply which is generated by private power plant owners like Calpine, NRG, Talen Energy, Vistra and Constellation.

Customers are seeing the impact of multiple forces at once. These factors together are driving upward pressure on bills.

PJM Supply costs

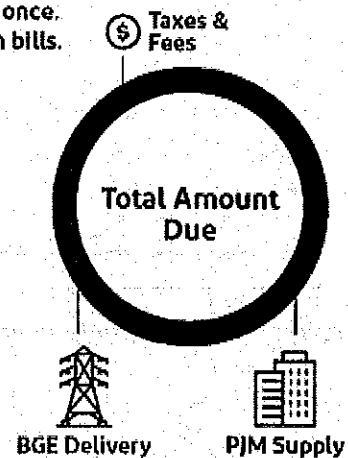

A charge for the electricity provided to you during the billing period. BGE does not control or profit from PJM Supply costs.

Delivery costs

The cost of wires, poles and equipment that deliver electricity safely and reliably to your home or business.

Fees

State and local taxes, fees, and credits including EmPOWER Maryland charges that fund energy-efficiency programs that are paid directly to the state or support state programs.

What BGE is doing for customers

Connecting customers to available assistance, including through our Customer Relief Fund.

Expanding programs that help reduce energy use and lower bills.

Protecting customers from cost impacts of blackouts, energy crises, like disasters.

Investing in technology to reduce outages and keep costs lower over time.

Advocating for utility-generated energy to increase supply.

Learn more at bge.com/EnergyCosts

Additional Information

Energy Assistance

With one easy application, customers can apply for energy grants from the Maryland Office of Home Energy Programs (OHEP). These grants don't have to be repaid and can help offset the costs of home heating and cooling. The amount of the credit is based upon income, household size and energy usage.

ENERGY ASSISTANCE PROGRAMS

Electric Universal Service Program (EUSP)

EUSP is a state program designed to help limited-income customers pay the electric portion of their bills. The program provides bill payment assistance and arrearage assistance, and is available once each "program year," which starts on July 1 each year. However, customers may apply any time during the year.

Maryland Energy Assistance Program (MEAP)

MEAP provides a grant for qualifying customers and is available once each program year. However, customers may apply at any time during the year.

Weatherization Assistance Program (WAP)

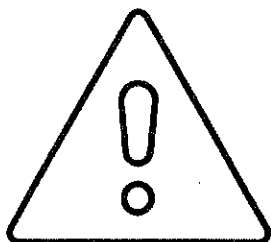

Those who qualify for MEAP may also be eligible to receive weatherization services through the WAP from the Maryland Department of Housing and Community Development. Ask about weatherization when applying for an energy assistance grant, or for more information, call **855.583.8976**.

Utility Service Protection Program (USPP)

USPP helps eligible limited-income customers avoid service interruptions by offering monthly budget billing and protection from shutoffs. To qualify, you must be enrolled in the Maryland Energy Assistance Program (MEAP). Apply today and take control of your energy costs.

For more information, call Maryland OHEP at **800.332.6347** or visit **dhs.maryland.gov/ohep**

Limited-income customers who are still unable to pay the charges for service should visit **[bge.com/ PaymentArrangement](https://bge.com/PaymentArrangement)**, or contact BGE about the availability of an alternate payment plan to avoid termination of service.

Gas Safety

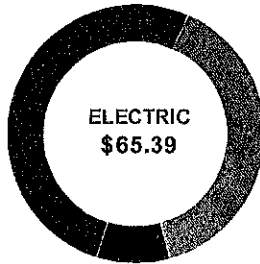

If you detect signs of a gas leak leave the premise, go at least **100** feet away, and call **911** immediately or BGE at **877.778.7798**.

For more information visit **[bge.com/ GasSafety](https://bge.com/GasSafety)**.

ATTENTION!

We know bills are high and that matters to us.

MARYLAND'S ENERGY PROBLEM — AND WHAT IT MEANS FOR YOUR BILL.

Blackout Risk

When demand is high ↗ and power supply is low ↘ the system becomes less stable, extreme heat and cold increase outage risk and blackouts become more likely.

Not enough power means higher bills and higher risk for customers.

If Nothing Changes...

- ↗ Blackout risk increases
- ↗ Energy prices keep rising
- ↗ Private power plant company profits grow

Why your electric bill is going up ↗

The biggest part of your bill is the cost of PJM Supply which is generated by private power plant owners like Calpine, NRG, Talen Energy, Vistra and Constellation.

Customers are seeing the impact of multiple forces at once. These factors together are driving upward pressure on bills.

PJM Supply costs

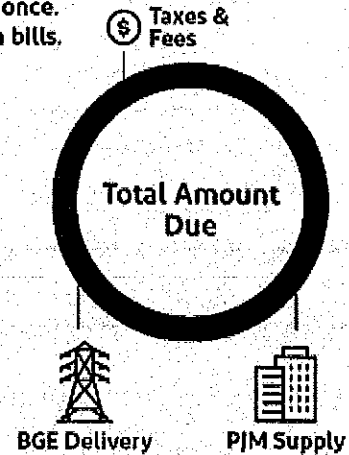

A charge for the electricity provided to you during the billing period. BGE does not control or profit from PJM Supply costs.

Delivery costs

The cost of wires, poles and equipment that deliver electricity safely and reliably to your home or business.

Fees

State and local taxes, fees, and credits including EmPOWER Maryland charges that fund energy-efficiency programs that are paid directly to the state or support state programs.

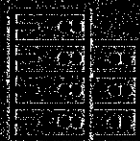

What BGE is doing for customers

Connecting customers to available assistance, including through our Customer Relief Fund.

Expanding programs that help reduce energy use and lower bills.

Protecting customers from cost impacts that could be energy users like data centers.

Investing in technology to reduce outages and keep costs lower over time.

Advocating for utility-generated energy to increase supply.

Learn more at [bge.com/EnergyCosts](https://www.bge.com/EnergyCosts)

Additional Information

Energy Assistance

With one easy application, customers can apply for energy grants from the Maryland Office of Home Energy Programs (OHEP). These grants don't have to be repaid and can help offset the costs of home heating and cooling. The amount of the credit is based upon income, household size and energy usage.

ENERGY ASSISTANCE PROGRAMS

Electric Universal Service Program (EUSP)

EUSP is a state program designed to help limited-income customers pay the electric portion of their bills. The program provides bill payment assistance and arrearage assistance, and is available once each "program year," which starts on July 1 each year. However, customers may apply any time during the year.

Maryland Energy Assistance Program (MEAP)

MEAP provides a grant for qualifying customers and is available once each program year. However, customers may apply at any time during the year.

Weatherization Assistance Program (WAP)

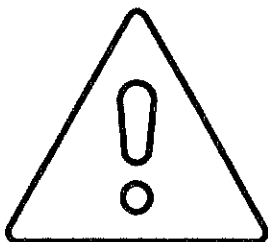

Those who qualify for MEAP may also be eligible to receive weatherization services through the WAP from the Maryland Department of Housing and Community Development. Ask about weatherization when applying for an energy assistance grant, or for more information, call **855.583.8976**.

Utility Service Protection Program (USPP)

USPP helps eligible limited-income customers avoid service interruptions by offering monthly budget billing and protection from shutoffs. To qualify, you must be enrolled in the Maryland Energy Assistance Program (MEAP). Apply today and take control of your energy costs.

For more information, call Maryland OHEP at **800.332.6347** or visit **dhs.maryland.gov/ ohep**

Limited-income customers who are still unable to pay the charges for service should visit **bge.com/ PaymentArrangement**, or contact BGE about the availability of an alternate payment plan to avoid termination of service.

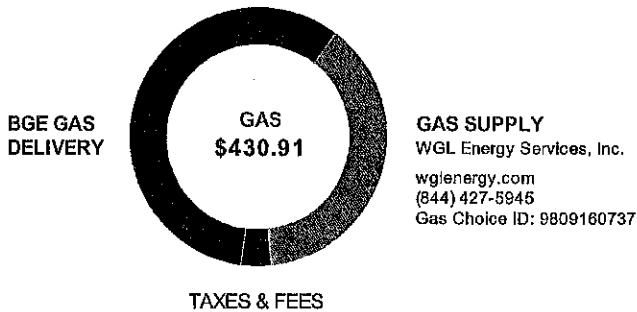

Gas Safety

If you detect signs of a gas leak leave the premise, go at least **100** feet away, and call **911** immediately or BGE at **877.778.7798**.

For more information visit **bge.com/ GasSafety**.

Bill Summary

Allen & Rocks Inc
6013 Hunt-Ridge Rd *PS
BALTIMORE, MD 21210
Account # 9809120000
Issued Date: September 18, 2026

Previous Balance	\$389.75
Payments Received September 11, 2026	-\$389.75
BGE Outstanding Balance	\$0.00
Gas	\$430.91
Total amount due by October 12, 2026	\$430.91

Payment received after October 12, 2026 will incur a late charge.

A late payment charge is applied to the unpaid balance of your BGE charges. The charge is up to 1.5% for the first month; additional charges will be assessed on unpaid balances past the first month, not to exceed 5%.

The amounts shown in the circles reflect charges from this bill period.

Pay your bill online, by phone or by mail.

ATTENTION!

We know bills are high and that matters to us.

MARYLAND'S ENERGY PROBLEM — AND WHAT IT MEANS FOR YOUR BILL.

Blackout Risk

When demand is high ↗ and power supply is low ↘ the system becomes less stable, extreme heat and cold increase outage risk and blackouts become more likely.

Not enough power means higher bills and higher risk for customers.

If Nothing Changes...

- ↗ Blackout risk increases
- ↗ Energy prices keep rising
- ↗ Private power plant company profits grow

Why your electric bill is going up ↗

The biggest part of your bill is the cost of PJM Supply which is generated by private power plant owners like Calpine, NRG, Talen Energy, Vistra and Constellation.

Customers are seeing the impact of multiple forces at once. These factors together are driving upward pressure on bills.

PJM Supply costs

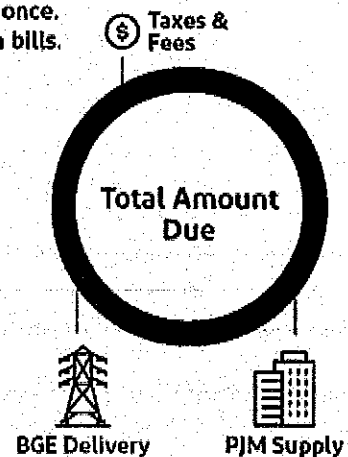

A charge for the electricity provided to you during the billing period. BGE does not control or profit from PJM Supply costs.

Delivery costs

The cost of wires, poles and equipment that deliver electricity safely and reliably to your home or business.

Fees

State and local taxes, fees, and credits including EmPOWER Maryland charges that fund energy-efficiency programs that are paid directly to the state or support state programs.

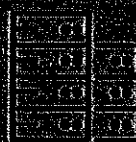

What BGE is doing for customers

Connecting customers to available assistance, including through our Customer Relief Fund.

Expanding programs that help reduce energy use and lower bills.

Protecting customers from cost impacts tied to large energy users like data centers.

Investing in technology to reduce outages and keep costs lower over time.

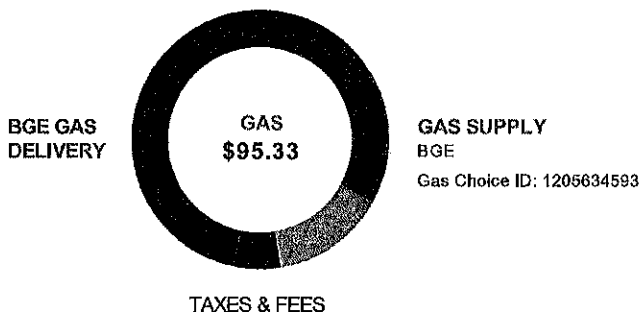

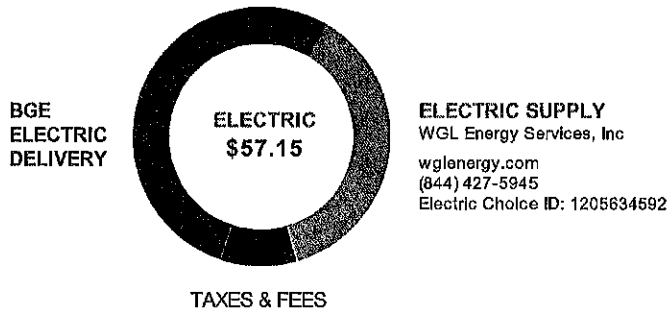

Advocating for utility generated energy to increase supply.

IMPORTANT INFORMATION ABOUT YOUR BILL

- ▶ The EmPower MD charge funds programs that can help you reduce your energy consumption and save you money. For more information, including how to participate, go to BGESmartEnergy.com.
- ▶ Even out your energy bills with Budget Billing-sign up at BGE.com/budget billing.

ATTENTION!

We know bills are high and that matters to us.

MARYLAND'S ENERGY PROBLEM — AND WHAT IT MEANS FOR YOUR BILL.

Blackout Risk

When demand is high $\nearrow$ and power supply is low $\searrow$ the system becomes less stable, extreme heat and cold increase outage risk and blackouts become more likely.

Not enough power means higher bills and higher risk for customers.

If Nothing Changes...

- $\nearrow$ Blackout risk increases
- $\nearrow$ Energy prices keep rising
- $\nearrow$ Private power plant company profits grow

Why your electric bill is going up $\nearrow$

The biggest part of your bill is the cost of PJM Supply which is generated by private power plant owners like Calpine, NRG, Talen Energy, Vistra and Constellation.

Customers are seeing the impact of multiple forces at once. These factors together are driving upward pressure on bills.

PJM Supply costs

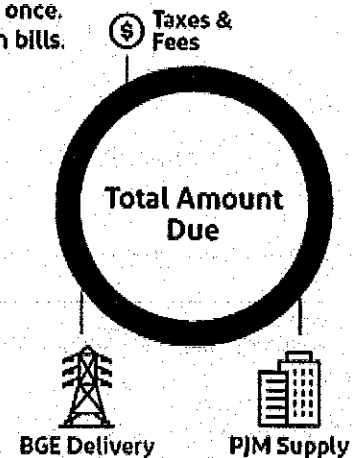

A charge for the electricity provided to you during the billing period. BGE does not control or profit from PJM Supply costs.

Delivery costs

The cost of wires, poles and equipment that deliver electricity safely and reliably to your home or business.

Fees

State and local taxes, fees, and credits including EmPOWER Maryland charges that fund energy-efficiency programs that are paid directly to the state or support state programs.

What BGE is doing for customers

Connecting customers to available assistance, including through our Customer Relief Fund.

Expanding programs that help reduce energy waste and lower bills.

Protecting customers from cost impacts tied to large energy users like data centers.

Investing in technology to reduce outages and keep costs lower over time.

Advocating for utility-generated energy to increase supply.

MARYLAND'S ENERGY PROBLEM — AND WHAT IT MEANS FOR YOUR BILL.

Blackout Risk

When demand is high $\nearrow$ and power supply is low $\searrow$ the system becomes less stable, extreme heat and cold increase outage risk and blackouts become more likely.

Not enough power means higher bills and higher risk for customers.

If Nothing Changes...

- $\nearrow$ Blackout risk increases
- $\nearrow$ Energy prices keep rising
- $\nearrow$ Private power plant company profits grow

Why your electric bill is going up $\nearrow$

The biggest part of your bill is the cost of PJM Supply which is generated by private power plant owners like Calpine, NRG, Talen Energy, Vistra and Constellation.

Customers are seeing the impact of multiple forces at once. These factors together are driving upward pressure on bills.

PJM Supply costs

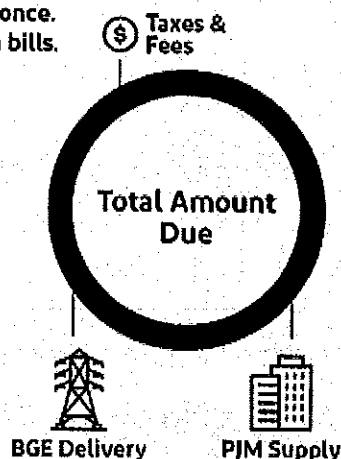

A charge for the electricity provided to you during the billing period. BGE does not control or profit from PJM Supply costs.

Delivery costs

The cost of wires, poles and equipment that deliver electricity safely and reliably to your home or business.

Fees

State and local taxes, fees, and credits including EmPOWER Maryland charges that fund energy-efficiency programs that are paid directly to the state or support state programs.

What BGE is doing for customers

Connecting customers to available assistance, including through our Customer Relief Fund.

Expanding programs that help reduce energy use and lower bills.

Protecting customers from cost impacts tied to large energy user rate changes.

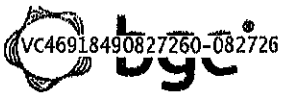

Investing in technology to reduce outages and keep costs lower over time.

Advocating for utility-generated energy to increase supply.

ATTENTION!

We know bills are high and that matters to us.

MARYLAND'S ENERGY PROBLEM — AND WHAT IT MEANS FOR YOUR BILL.

Blackout Risk

When demand is high $\nearrow$ and power supply is low $\searrow$ the system becomes less stable, extreme heat and cold increase outage risk and blackouts become more likely.

Not enough power means higher bills and higher risk for customers.

If Nothing Changes...

- $\nearrow$ Blackout risk increases
- $\nearrow$ Energy prices keep rising
- $\nearrow$ Private power plant company profits grow

Why your electric bill is going up $\nearrow$

The biggest part of your bill is the cost of PJM Supply which is generated by private power plant owners like Calpine, NRG, Talen Energy, Vistra and Constellation.

Customers are seeing the impact of multiple forces at once. These factors together are driving upward pressure on bills.

PJM Supply costs

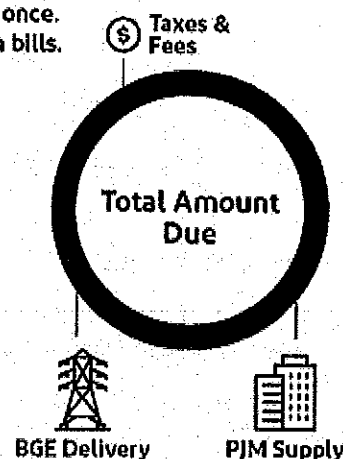

A charge for the electricity provided to you during the billing period. BGE does not control or profit from PJM Supply costs.

Delivery costs

The cost of wires, poles and equipment that deliver electricity safely and reliably to your home or business.

Fees

State and local taxes, fees, and credits including EmPOWER Maryland charges that fund energy-efficiency programs that are paid directly to the state or support state programs.

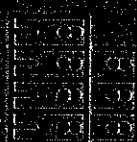

What BGE is doing for customers

Connecting customers to available assistance, including through our Customer Relief Fund.

Expanding programs that help reduce energy use and lower bills.

Protecting customers from cost impacts and to large energy users like data centers.

Investing in technology to reduce outages and keep costs lower over time.

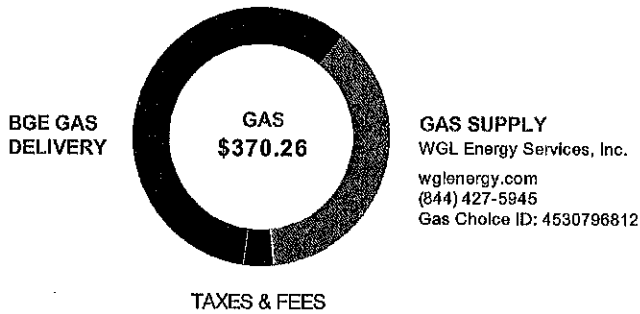

Advocating for utility-generated energy to increase supply.

MARYLAND'S ENERGY PROBLEM — AND WHAT IT MEANS FOR YOUR BILL.

Blackout Risk

When demand is high $\nearrow$ and power supply is low $\searrow$ the system becomes less stable, extreme heat and cold increase outage risk and blackouts become more likely.

Not enough power means higher bills and higher risk for customers.

If Nothing Changes...

- $\nearrow$ Blackout risk increases
- $\nearrow$ Energy prices keep rising
- $\nearrow$ Private power plant company profits grow

Why your electric bill is going up $\nearrow$

The biggest part of your bill is the cost of PJM Supply which is generated by private power plant owners like Calpine, NRG, Talen Energy, Vistra and Constellation.

Customers are seeing the impact of multiple forces at once. These factors together are driving upward pressure on bills.

PJM Supply costs

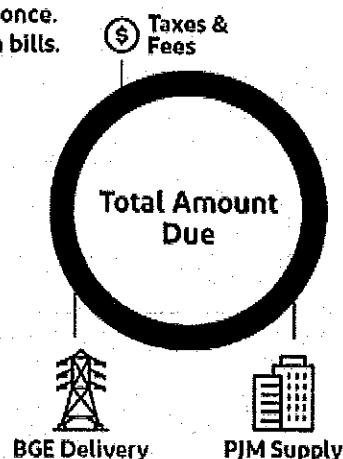

A charge for the electricity provided to you during the billing period. BGE does not control or profit from PJM Supply costs.

Delivery costs

The cost of wires, poles and equipment that deliver electricity safely and reliably to your home or business.

Fees

State and local taxes, fees, and credits including EmPOWER Maryland charges that fund energy-efficiency programs that are paid directly to the state or support state programs.

What BGE is doing for customers

Connecting customers to available assistance, including through our Customer Relief Fund.

Expanding programs that help reduce energy use and lower bills.

Protecting customers from cost impacts, like to charge energy users like data centers.

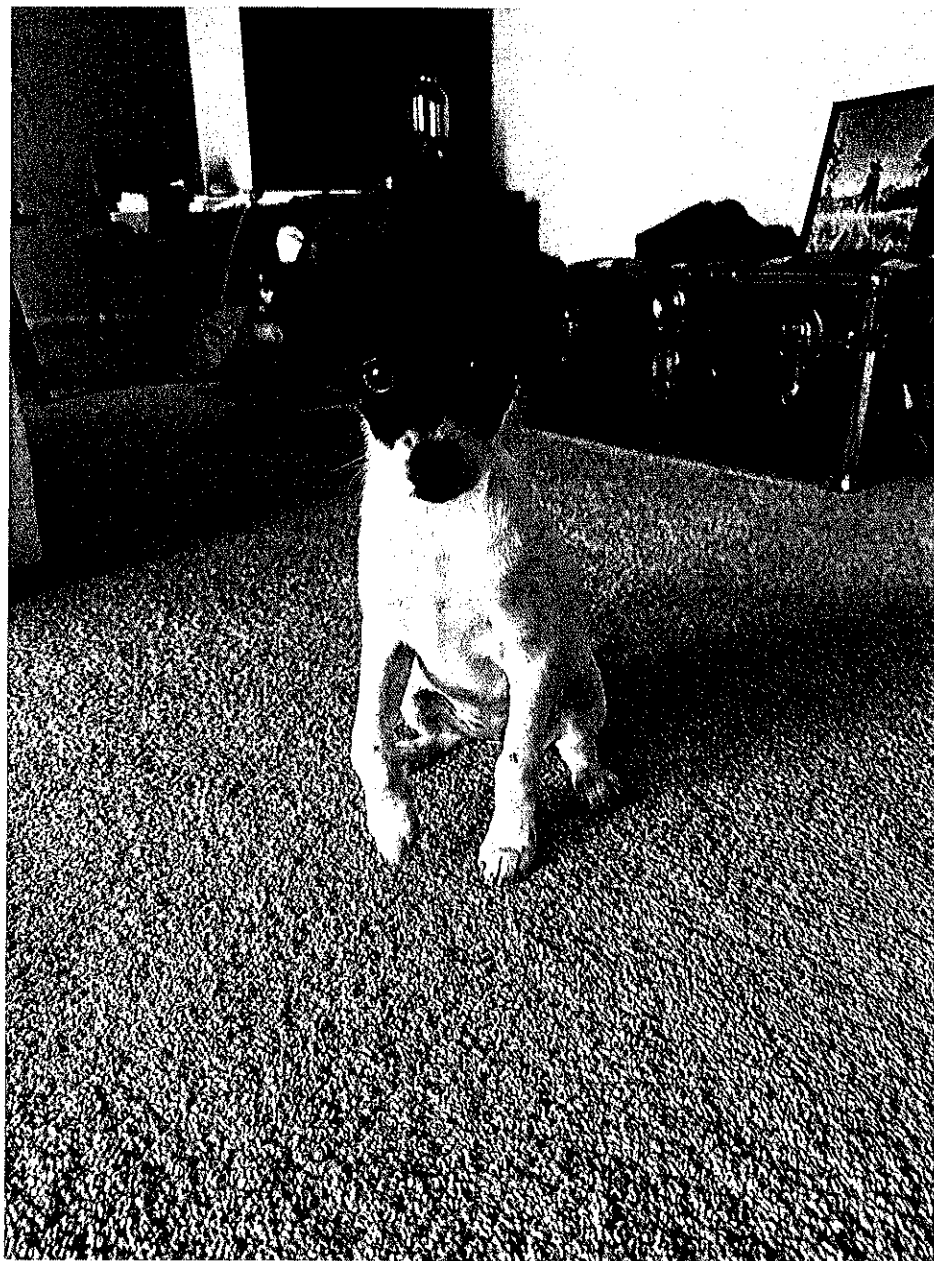

Investing in technology to reduce outages and keep costs lower overall.

Advocating for utility generated energy to increase supply.

ATTENTION!

We know bills are high and that matters to us.

MARYLAND'S ENERGY PROBLEM — AND WHAT IT MEANS FOR YOUR BILL.

Blackout Risk

When demand is high ↗ and power supply is low ↘ the system becomes less stable, extreme heat and cold increase outage risk and blackouts become more likely.

Not enough power means higher bills and higher risk for customers.

If Nothing Changes...

- ↗ Blackout risk increases
- ↗ Energy prices keep rising
- ↗ Private power plant company profits grow

Why your electric bill is going up ↗

The biggest part of your bill is the cost of PJM Supply which is generated by private power plant owners like Calpine, NRG, Talen Energy, Vistra and Constellation.

Customers are seeing the impact of multiple forces at once. These factors together are driving upward pressure on bills.

PJM Supply costs

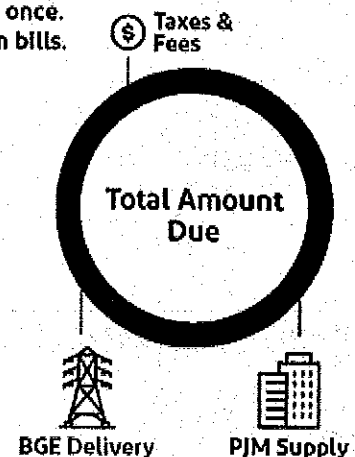

A charge for the electricity provided to you during the billing period. BGE does not control or profit from PJM Supply costs.

Delivery costs

The cost of wires, poles and equipment that deliver electricity safely and reliably to your home or business.

Fees

State and local taxes, fees, and credits including EmPOWER Maryland charges that fund energy-efficiency programs that are paid directly to the state or support state programs.

What BGE is doing for customers

Connecting customers to available assistance, including through our Customer Relief Fund.

Expanding programs that help reduce energy use and lower bills.

Protecting customers from cost impacts tied to large energy users like data centers.

Investing in technology to reduce outages and keep costs lower over time.

Advocating for utility-generated energy to increase supply.

Bill Summary

Allen & Rocks Inc
6114 Allwood Ct
Baltimore, MD 21210
Account # 9894341000
Issued Date: August 21, 2026

Previous Balance	\$999.45
Payments Received August 6, 2026	-\$999.45
BGE Outstanding Balance	\$0.00
Electric	\$768.92
Gas	\$68.79
Total amount due by September 14, 2026	\$837.71

Payment received after September 14, 2026 will incur a late charge.
A late payment charge is applied to the unpaid balance of your BGE charges.
The charge is up to 1.5% for the first month; additional charges will be assessed on unpaid balances past the first month, not to exceed 5%.
The amounts shown in the circles reflect charges from this bill period.

Pay your bill online, by phone or by mail.
